

Frustrations

MiC LOWRY

You know exactly what I wanna do
I'm coming to take all my frustrations out

In a crowd, but somehow I'm alone
And this moment is frozen
Every second I'm checking my phone
And this drink that I'm holding
Every night tastes the same, ain't no liquor as strong as you
But what's keeping me sane is the things that you're doing

You are sending dirty pictures in your new car
Make a brother wanna take it too far, you are,
You're gonna get it, baby
We can, we can get a ticket for the weekend
Change it up and stay until the week ends,
can't wait to take all my frustrations out

You know exactly what I wanna do
I'm coming to take all my frustrations out
You know exactly what I wanna do
I'm coming to take all my frustrations out

From the bed to the floor to the hotel elevator
We'll be breaking the law, but we don't care at all, it's in our nature
Mixing pleasure with pain, every night we'll try something new
It's the things that you say, make it hard to be far from you

You are sending dirty pictures in your new car
Make a brother wanna take it too far
You are,
You're gonna get it, baby
We can, we can get a ticket for the weekend
Change it up and stay until the week ends,
Can't wait to take all my frustrations out

You know exactly what I wanna do
I'm coming to take all my frustrations out
You know exactly what I wanna do
I'm coming to take all my frustrations out

Let me take it out on you, oh
Take all my frustrations out
Taking all these frustrations
Take all my frustrations out

You are sending dirty pictures in your new car
Make a brother wanna take it too far
Oh We can, we can get a ticket for the weekend
Change it up and stay until the week ends
I can't wait 'til I can finally

You know exactly what I wanna do
I'm coming to take all my frustrations out
You know exactly what I wanna do
I'm coming to take all my frustrations out
You know exactly what I wanna do
I'm coming to take all my frustrations out
