MiC LOWRY

Oh girl you're so fine  
You know I'm feeling your vibe  
Forget everyone around us tonight  
I want you so much  
You know I'm needing your touch  
I think you might be more than just a crush

Baby you be giving me something  
With the way that you move got my heart jumping  
Don't complicate it I know that u feel the same

Make me loose my focus  
I just wanna know if  
If we go back to mine  
Would you spend the night  
An maybe I'll be getting in between ya thighs

You got me acting a fool  
So crazy for you  
An I can't even keep it to myself  
I think you're a danger to my health

So pull up and come through
