

# No Problem

MiC LOWRY

When it's me and you  
I promise that I will be blowing your mind  
When the night is through  
You gotta promise me that you won't be blowing up my line  
You should

I think it's amazing, there ain't no use in faking  
I never need persuading 'cause I never mind seeing you naked  
Darling, you should  
Call me, call me at night when you're in the mood  
You know it's true  
If that's the way you like, that's fine, that's cool

It's alright, spend the night  
You should know I do it better, but you're gonna want forever  
You can be mine  
Baby, I don't need forever, but if you wanna get together, that is

No problem, come through and let's do it  
That's no problem, let's get it right to it, we ain't stopping  
Yeah, we gon' do it 'til the early morning  
Gonna be no problem, we ain't gotta tell nobody  
It can be our secret  
But you should know, the second we get close  
That you ain't never wanna go home

That's just how it goes with me  
Girls come, never wanna leave  
You said no strings attached, you're not looking for a man  
Darling, you should  
Call me, call me at night when you're in the mood  
You know it's cool 'cause  
If that's the way you like, that's fine, that's cool

It's alright, spend the night
