

Directions

Micah Tyler

I used to get caught up just chasing distractions
I used to fix my eyes on my own satisfaction
But then You called my name and erased my past
You told me to follow and never turn back
And then you changed my path with divine navigation

And I know my heart is prone to wonder
This is my confession
Keep me close, I won't let go
Because I would be so lost
Without your directions
I need your directions

Sometimes I forget you are my true destination
And then I make wrong turns to other locations
But then You called my name and You redirect
My feet to follow You step by step
So I will run to You in the joy of salvation

And I know my heart is prone to wonder
This is my confession
Keep me close, I won't let go
Because I would be so lost
Without your directions
I need your directions

If you say move, I will move
If you say wait, I will wait
And all the rest of my days I will follow you
If you say move, I will move
If you say wait, I will wait
And all the rest of my days I will follow you
If you say move, I will move
If you say wait, I will wait
And all the rest of my days I will follow you

And I know my heart is prone to wonder
This is my confession
Keep me close, I won't let go
Because I would be so lost
Without your directions
I need your directions

(If you say move, I will move)
(If you say wait, I will wait)
(And all the rest of my days)
I will follow you
(If you say move, I will move)
(If you say wait, I will wait)
(And all the rest of my days)
I will follow you
(If you say move, I will move)
(If you say wait, I will wait)
(And all the rest of my days)
I will follow you
(If you say move, I will move)
(If you say wait, I will wait)

(And all the rest of my days)
(If you say move, I will move)
(If you say wait, I will wait)
(And all the rest of my days)
