

# Without Love

Micah Tyler

Like a song without a melody  
Like a boat that never finds the sea  
If your heart's not in it  
Are you really living

Like the dawn before the morning light  
Like a bird that never learns to fly  
If your heart's not in it  
Something's missing

We got so good at being good  
Want so badly to be right  
But all of it means nothing  
If we lose the reason why

Without love  
We're searching for what we'll never find  
Without love  
We've lost before we started the fight  
So instead of trying to gain the world  
Let's give it all away  
Let's not go another day  
Without love  
(Ooh, yeah)  
Without love

It's like faith without religion  
Like grace without conditions  
If your heart's not in it  
Ya might as well quit it

Without love  
We're searching for what we'll never find  
Without love  
We've lost before we started the fight  
So instead of trying to gain the world  
Let's give it all away  
Let's not go another day  
Without love  
(I don't wanna go another day)  
Without love

We got pretty good at being good  
Want so badly to be right  
But all of it means nothing  
If we lose the reason why  
We're so scared of letting go  
It's so hard to understand  
That all of it means nothing  
Oh, all of it means nothing

Without love  
We're searching for what we'll never find  
We've lost before we started the fight

Without love  
We're searching for what we'll never find

Without love  
We've lost before we started the fight  
So instead of trying to gain the world  
Let's give it all away  
Let's not go another day (Ooh, yeah)  
Let's not go another day  
Without love (Ooh, yeah)  
Without love  
(I'm not gonna go another day)  
Without love  
(I'm not going anywhere)  
Without love
