

Handbrake

Micatone

You've been acting strange, lately
and it is getting me down
and that's the way
you make me feel all the time
i had this dream last night
being driving round in my car
the handbrake pulled tight aaaa I
I've been driving round all night
the handbrake oh! it didn't feel right aaaa I

you've been acting strange

just having some garage time
trying to figure out what goes on
and that is part of time
now being chasing calls and pipes don't fit
and then fluid runs out over chrome, in is my key

I had a dream last night
the brakes have gone, now is running out of control
I had a dream last night
the brakes gone, it didn't feel right

you've been acting strange

just looking for that classic ride
not something too weak, part of "get wild"
(I know I shouldn't complain)
mmm took some load, took, off that chrome
getting me muffs some, giving that loan,
no, no open up his throat

I had a dream last night
being driving round in my car
the handbrake pulled tight aaaa I
I had a dream last night
there was just me, car and blow,
I drove.
