

Yeah Yeah Yeah (That's The Way It Goes)

Micatone

They said there's gonna be trouble ahead
They said its gonna make you mad they said
You'll never gonna make it
I thought my whole life would be changed
I thought I've got to rearrange my world
and maybe it would break me
But I guess there's nothing in this world
I bet there's nothing on this earth
As sweet and wonderful and lovely as you are
Your look when you smile at me in your eyes I clearly see
The brightest days
Yeah yeah yeah
It's never been that clear
Yeah yeah yeah
There's no way back
Yeah yeah yeah
We can't control it dear
Yeah yeah yeah
Follow the track
You'll still be there when I'm gone for long
And that's the way it goes
Round and round
My life has changed in many ways
But I look forward to the days
The days that I can spend with you
I promise I will care for you
And be there just as long as you
As long as you will need me
There's a long road to travel
And I never been down that road before
I'm driving blind
But I know which way to go
Yeah, I know which way to go
Now it's my turn
Yeah it's my turn
To get through
Yeah yeah yeah
It's never been that clear
Yeah yeah yeah
There's no way back
Yeah yeah yeah
We can't control it dear
Yeah yeah yeah
Follow the tracks
(you gotta follow the tracks)
