

Airwaves

Michael Bolton

Are you ready? Say you'll let me
Take you for a ride
The night is young, it's just begun
Why don't you step inside
Get ready, get ready
We'll leave this place behind
You'll feel the airwaves answer
Every question in your mind

With every moment passing by
Who's got the time to wonder why
It's taken eternity

[refrén:]
Airwaves(come and ride the airwaves)
Airwaves(tell me how you feel)
Airwaves(come and ride the airwaves)
It's alright, it's alright
You'll remember

Oh, yeah
There is a place where time and space
Will open every door
Revealing things beyond the dreams
We've ever known before

With every moment passing by
Who's got the time to wonder why
It's taking eternity

[refrén]

Oh it's alright
Airwaves
Airwaves
Airwaves
