

# Gotta Keep Dreaming

Michael Bolton

Baby I remember wandering how we touch the sky  
A kiss could ever taste so sweet  
The start could ever shine so bright  
The promise are forevr  
We keep believe in our souls  
And holding music, sweet, sweet music its playing on the radio

And nothing gotta take all this  
And nothing gotta brake my faith  
Gotta keep dreaming  
Dreaming and believing  
The truths in your eyes, youll never say goodbye  
Is something so strong  
And I could ever go, go into the ocean  
Something so right, and never get wrong  
Too good to be done  
Rise enough to get there  
Drive into the window raise  
The darkest moments, have only show us how roll home again

And nothing gotta take all this  
And nothing gotta brake my faith  
Gotta keep dreaming  
Dreaming and believing  
The truths in your eyes, youll never say goodbye  
Is something so strong  
And I could ever go, go into the ocean  
Something so right, and never get wrong  
Too good to be done

Better believe and we will stand at the end  
We run out and we made it, cuz everything was fine and cool  
Ooh yeah, ooh yeah

You gotta keep dreaming  
Dreaming and believing  
The truths in your eyes, youll never say goodbye  
Is something so strong  
And I could ever go, go into the ocean  
Something so right, and never get wrong  
Too good to be done

You gotta keep dreaming  
You gotta keep dreaming  
Keep on dreaming  
Keep on dreaming  
You know we gotta keep dreaming  
Keep on, keep on, keep on dreaming
