It's Just A Feeling

Michael Bolton

Its not the tape this song is recorded on Its not the way it ought to be done Its not the words that the singer is singin Its not the way the music is played I know its nothin new cause its all been done before

Its just a feelin baby A feelin, oh yeah, a feelin baby Its just a feelin Thats all its been Thats all its ever been

Its not the things you say to me When were alone and the lights are low Its not the smile on your face in the morning Baby, that keeps me comin home to you at night Dont understand what it does But your love comes shinin through

Its just a feelin, baby Its a feelin, oh Oh, a feelin baby Its a feelin that keeps me coming back I want to tell you right now

Nothing is going to change, baby When your love, your love comes through Its just a feelin, baby A feelin, oh, feelin baby Just a feelin baby, ooh Its just a feelin, its just a feelin baby
