

# Love with My Eyes Closed

Michael Bolton

I close my eyes and now I pray  
That you are out there doing the same  
Long for the touch it stands alone  
It needs no vision to find its home

I've seen beauty in the mountains  
I've seen rivers meet the sea  
I've seen light above the horizon  
Shining down all over me

I've seen beggars turn to rich men  
Seen the birth of my own child  
I don't wanna find this feeling  
Just to let it go

Wanna love with my eyes closed  
Wanna feel you inside my soul  
Want your warm body next to me  
So I can feel what my heart knows  
Wanna love with my eyes closed

Deep in my mind I touch your skin  
The risk of emotions in life so thin  
And will you love me when I am old?  
When I'm no longer too strong to hold

I've seen beauty in the mountains  
I've seen rivers meet the sea  
I've seen light above the horizon  
Shining down all over me

I've seen beggars turn to rich men  
Seen the birth of my own child  
I don't wanna find this feeling  
Just to let it go

Wanna love with my eyes closed  
Wanna feel you inside my soul  
Want your warm body next to me  
So I can feel what my heart knows  
Wanna love with my eyes closed

Wanna live in the afterglow  
Wanna trust then I can believe  
Everything that my heart knows  
Wanna love with my eyes closed, yeah

I don't wanna find this feeling  
Just to let it go

Wanna love with my eyes closed, yeah  
I want your warm body next to me  
So I can feel what my heart knows

Wanna love with my eyes closed  
Wanna live in the afterglow  
Wanna trust that I can believe

Everything that my heart knows

I wanna love with my eyes closed  
(I've seen beauty in the mountains)  
(I've seen rivers meet the sea)

Ooh

(I want your warm body next to me)  
I've seen light above the horizon  
(So I can feel what my heart knows)  
Shining down all over me

(I wanna love with my eyes closed)  
I've seen beggars turn to rich men  
(I wanna live in the afterglow)  
Seen the birth of my own child  
(Wanna trust that I can believe)  
I don't wanna find this feeling  
(Everything that my heart knows)  
Just to let it go

Wanna love with my eyes closed, ooh
