

Simply

Michael Bolton

I simply love you, I don't have to ask why
I simply know this, like the sun knows to shine
The way you touch me, is there anything so right
In the soul of every part of me, I feel alive

It's true, I don't have to think twice
So true, baby you're a fact of life
Every little thing you say and do
Just breaks me down and brings me back to you

It's true, there ain't a doubt in my heart
It's you, even in the deepest part
Never gonna be a way around it
All comes down to

I simply need you and I want you till I ache
You made me need you, the choice was never mine to make
I surrender, I'm just a man with no escape
'Cause I'm really not about to live without you, baby

It's true, I don't have to think twice
So true, baby you're a fact of life
Every little thing you say and do
Just breaks me down and brings me back to you

It's true, there ain't a doubt in my heart
It's you, livin' in the deepest part
Never gonna be a way around it
All comes down to

Ain't got no temptation
Try to solve this mystery
There ain't no explanation
Need to find out what's meant to be

It's true, I don't have to think twice
So true, 'cause you're a fact of life
Every little thing you say and do
Just breaks me down and brings me back to you

It's true, there ain't a doubt in my heart
It's you, tell you from the deepest part
Never gonna find a way around it
What it all comes down to

Now I've told you, what I've been feelin' all along
Search for the right way as if it ever could be wrong
To simply say, all there is to say
I simply love you
