

Whenever I Remember Loving You

Michael Bolton

When the rain is fallin' and I'm overcome
With the doubts and demons of a love undone
No voice need tell me that you were the one

Oh I'll remember all my life a love that set me free
Whatever comes of you and I, I will still believe
That once upon a time a dream came true
Whenever I remember loving you, oh yeah

Not a single moment, not a single kiss
Would I have traded, would I have missed
No other could ever move me like this

Oh I'll remember all my life a love that set me free
Whatever comes of you and I, I will still believe
That once upon a time a dream came true
Whenever I remember loving you, oh yeah
I remember loving you

It's not that I don't feel the pain as deep as pain can be
But I will not be denied the light, your love has brought to me
What you've given me will last forever, I refuse to lose the tr
easure
Of you inside my heart eternally, yeah

Oh I'll remember all my life a love that set me free
Whatever comes of you and I, oh I will still believe
That once upon a time a dream came true
Whenever I remember loving you
I'll always feel the love we once knew
'Cause as long as I remember loving you, oh yeah

I will remember loving you
I'll remember all my life
I will remember
Not a single moment, not a single kiss
I'll remember all my life
Let them miss you

I'll remember all my life
I'll remember all my life
I'll remember all my life
...
