

Soweto

Michael Brun

Baby, I go way down
Down town Soweto
Baby, I go way down
Down town Soweto
Baby, I go way down
Down town Soweto
Baby, I go way down
Down town Soweto

Bad intentions in mind
I see, I see your eyes
Lips looking like red wine
When you wine the bass-line
Let the right kiss your eye
Got my hands by my side
Tell you it's 'bout tonight
We gon' make the headlines

Had to [?]
And you know you're danger, babe
When you call I'm on my way
Oh, I swear you the boss my brain
Gotta to [?]
From [?] to [?]
When you call I'm on my way
Oh, I love it when you

Pull up, I go way down
Down town Soweto
Pull up, I go way down
Down town Soweto
Pull up, I go way down
Down town Soweto
Pull up, I go way down

Don't know how you did that
Let me go, I relapse
Went from chilled and laid back
To the only one on my radar
There's no way I can shake this
There's no way I can shake this kinda feeling

And you know you're danger, babe
When you call I'm on my way
Oh, I swear you the boss my brain

From [?] to [?]
When you call I'm on my way
Oh, I love it when you

Pull up, I go way down
Down town Soweto
Pull up, I go way down
Down town Soweto
Pull up, I go way down
Down town Soweto
Pull up, I go way down

What's a long time, leave a long line
I been waiting on you
Make the wrong turn in a left lane
You still right for me
What's a long time, come at the wrong time
I don't care
As long as you're here

Pull up, I go way down
Down town Soweto
Pull up, I go way down
Down town Soweto
Pull up, I go way down

I go way down, I go way down
I go way down, I go way down
I go way down, I go way down
