

Morning Prayer

Michael Card

We wanted to give You this morning, Lord
We wanted to give You this day
Thanks for the sun and it's light in our hearts
There are so many things we need to say

As we look to a new day to spend with you
It's exciting to think what it means
That you would choose us and use us and call us your own
That you love us and give us a new song to sing

In order to give you the whole of the day
We must give you this first special part
The sun as it rises reminds us of You
The day without You is like a day in the dark

We wanted to give You this morning, Lord
We wanted to give You this day

In order to give you the whole of the day
We must give you this first special part
The sun as it rises reminds us of You
The day without You is like a day in the dark

We wanted to give You this morning, Lord
We wanted to give You this day
