

Somewhere In Time

Michael Crawford

Where there is time, there is tomorrow
Somewhere in time, all sorrows pass to memory
and the end is the beginning
Somewhere in time, we are as we're meant to be

Where there is time, there is a circle
Somewhere in time, the circle yearns to be complete
Though you may feel this is illusion
somewhere in time, I know we're certain to meet

Somewhere in time love is forever
A love that's here, a love that's now, to last for all time

Somehow I know this moment's waiting somewhere in time

Where there is time, there is a circle
Somewhere in time, the circle will be complete
Somewhere in time love is forever
A love that's here, a love that's now, to last for all time

Somehow I know this moment's waiting somewhere in time
