Shadows Over my head Shadows Is driving me mad I'm so afraid what rules my mind I only wanna live my life You can't run You can't hide Will I ever find some piece of mind? I'm so upset, yeah, we can try We can't live together Tell me why Shadows Over my head Shadows Is driving me mad I'm so afraid what rules my mind I only wanna live my life Will you stand by me Just hear me now I've been always waiting Can't you see? Shadows Over my head Shadows Is driving me mad I'm so afraid what rules my mind I only wanna live my life Shadows Over my head Shadows Is driving me mad I'm so afraid what rules my mind I only wanna live my life You can't run You can't hide Will I ever find some piece of mind? I'm so upset, yeah, we can try We can't live together Tell me why Shadows Over my head Shadows Is driving me mad I'm so afraid what rules my mind I only wanna live my life
