

Flirtation

Michael Franks

Drove past your house so slow
Turned up my radio
I think you know the station
Please open up your door
I need some more flirtation

Last night at show and tell
You sure did ring my bell
With cryptic conversation
Sent shivers down my spine
With all your fine flirtation

Little darlin' you gotta give your love to me
Little darlin' you gotta give you gotta give
Little darlin' somehow I'm gonna make you see
Little darlin' you gotta give your love to me

When will we meet again?
I can't remember when
I felt such inspiration
You knocked me off my feet
With all your sweet flirtation

Who says the earth won't move?
The needle in the groove
Creates the syncopation
It's paradise or bust
Or is it just flirtation?
