

Anyone Can See

Michael Franti & Spearhead

Anyone can see what you mean to me
Anyone can see what you mean to me
What you mean to me
What you mean to me

Love has a rule
Hold it gently in your hands
And when I'm a fool
Please help me understand

That there's more to this life
Than all we can take
And all of the gold and all our mistakes and
Love is alive
Love is alive

I know that it's true cause I feel it inside

Anyone can see what you mean to me
Anyone can see what you mean to
More than all the stars up in the sky
More than any rumors flying by
More than all the castles in the sand
More than anybody, anybody can
Anyone can see what you mean to me
What you mean to me

If I could tell you
Everything I feel
Sometimes I'm a fool but all of this is real
Cause there's more to this life
Than all we can take
That's why I'm with you
Through all our mistakes and
Love is alive
Love is alive
I know that it's true cause I feel it inside

Anyone can see what you mean to me
Anyone can see what you mean to
More than all the stars up in the sky
More than any rumors flying by
More than all the castles in the sand
More than anybody, anybody can
Anyone can see what you mean to me
What you mean to me
