

Better

Michael Franti & Spearhead

I hope tomorrow gets here quickly cause I can't wait
I know the future's gonna be brighter but it's dark today
Even when I struggle just to keep my head on
I breathe in breathe out
And float on like

Ayy ay the stars are awful bright tonight
And ayy ay everything's gonna be alright

It's gonna get better better I know
It's gonna get better better I know
As long as we're together oh I know
It's gonna get better and better
Better and better

Lately I've been thinkin' maybe I should disappear
I've been going crazy cause it's been a crazy year
Heaven must have sent you here for me to lean on
I breathe in breathe out
And float on like

Ayy ay the stars are awful bright tonight
And ayy ay everything's gonna be alright

It's gonna get better better I know
It's gonna get better better I know
As long as we're together oh I know
It's gonna get better and better
Better and better

Breathe in breathe out and float on like
Breathe in breathe out and float on like
Breathe in breathe out and float on like

It's gonna get better and better
Better and better
Lately I've been thinkin' maybe I should disappear
I've been going crazy cause it's been a crazy year
So hold on it's gonna get better
Hold on it's gonna get better
Hold on it's gonna get better
Breathe in breathe out
Breathe in breathe out

It's gonna get better better I know
It's gonna get better better I know
As long as we're together oh I know
It's gonna get better and better
Better and better

Breathe in breathe out and float on like
Breathe in breathe out and float on like
Breathe in breathe out and float on like

It's gonna get better and better
Better and better
Hold on it's gonna get better

Hold on it's gonna get better
