

# Big Big Love

Michael Franti & Spearhead

Uh uh uh  
We come a long way  
Haven't we?  
Baby yeah, you and me  
Yeah we're still dreamin'  
We built a family  
Little house  
Filled it up with memories  
And we're still believin'

The yesterdays we fell down some  
And the best of days are yet to come  
The little things they all add up  
If it overflows you raise your cup

We got big big big big love  
Bigger than the sun comin' down on us  
When it goes down now we can light it up  
Cause we got big big big big love  
And oh my my my my  
Every little thing's gonna be alright  
Throw your hands high in the air one love  
Cause we got big big big big big big big big love

Everybody knows what's in their bank account  
But only God knows how many times you go around this world  
Girl we gonna make it count  
We don't need a million dollars cause we got a million pounds of love love 1  
ove  
We can make it rain comin' down from above  
We got love love love  
We can make it rain comin' down from above

Cause we got big big big big love  
Bigger than the sun comin' down on us  
When it goes down now we can light it up  
Cause we got big big big big love  
And oh my my my my  
Every little thing's gonna be alright  
Throw your hands high in the air one love  
Cause we got big big big big love  
We got one love, one love  
We got big big big big love  
We got one love, one love  
We got big big big big big big big big love

The yesterdays we fell down some  
But the best of days are yet to come  
The little things they all add up  
If it overflows you raise your cup  
Cause we got big big big big love  
Bigger than the sun comin' down on us  
When it goes down now we can light it up

Cause we got big big big big love  
And oh my my my my  
Every little thing's gonna be alright

Throw your hands high in the air one love

Cause we got big big big big love

We got one love, one love

We got big big big big love

We got one love, one love

We got big big big big love

We got one love, one love

We got big big big big love

We got one love, one love

We got big big big big big big big big love
