

Hella Good

Michael Franti & Spearhead

You're my Sunday morning sunlight
Like Marley in The Moonlight
Favorite record on repeat
My cinnamon on Baker Street
Sandy water on our feet
Like ocean and the shore, we meet
Sun is settin' in your eyes
I thank you for a million lives

And oh my, my, oh yes, yes
You stole my heart and I feel blessed
Oh my my, oh yes, yes
My love

You got me feeling hella good, baby, good, baby
Just like I never thought I could, baby, could, baby
You got me feeling like I should, baby, should, baby
Just like I never thought I could, so good, so good
You got me feeling hella good

So let's jump in the car and let the stars be our destination
We are where we are
Let our hearts be the navigation

Oh my, my, oh yes, yes
You stole my heart and I feel blessed
Oh my, my, oh yes, yes
My love

You got me feeling hella good, baby, good, baby
Just like I never thought I could, baby, could, baby
You got me feeling like I should, baby, should, baby
Just like I never thought I could, so good, so good
You got me feeling like

Oh, my, my, my
Oh, my, my, my
Oh, my, my, my love
Oh, my, my, my
Oh, my, my, my
Oh, my, my, my love

You got me feeling hella good, baby, good, baby
Just like I never thought I could, baby, could, baby
You got me feeling like I should, baby, should, baby
Just like I never thought I could, so good, so good

You got me feeling hella good, baby, good, baby
Just like I never thought I could, baby, could, baby
You got me feeling like I should, baby, should, baby
Just like I never thought I could, so good, so good
You got me feeling hella good
