

# Life Reminds Us We're Alive

Michael Franti & Spearhead

Nobody gets out pain free  
Nobody doesn't get lonely  
I used to think that maybe  
I was the only one  
I was the only one  
But nobody doesn't get a broken heart  
And nobody doesn't need a brand new start  
Everybody's been on a shoulder cryin'  
Drunk on Saturday night

That's how life reminds us we're alive  
That's how life reminds us we're alive  
That's how life reminds us we're alive  
Cause everybody's born with a big big dream  
That you make and you break til your heart stops beatin'  
That's how life reminds us we're alive

Nobody finds a perfect lover  
No magic in a four leaf clover  
But even through the stormy weather  
I'll be the one for you  
I'll be the one for you  
Cause nobody doesn't need a friend to believe them  
And nobody doesn't have a friend who leaves them  
So say a prayer for all who dare to  
Love on Saturday night

That's how life reminds us we're alive  
That's how life reminds us we're alive  
That's how life reminds us we're alive  
Cause everybody's born with a big big dream  
That you make and you break til your heart stops beatin'  
That's how life reminds us we're alive

To take the big hits when you feel them  
Your hearts wide open for all the big feelin's  
Take the big hits when you feel them  
Your hearts wide open for all the big feelin's  
So raise a glass to the friends you believe in  
And raise a glass to the ones who's leavin'  
And raise a glass for no freakin' reason  
Out on Saturday night

That's how life reminds us we're alive  
That's how life reminds us we're alive  
That's how life reminds us we're alive  
That's how life reminds us we're alive  
That's how life reminds us we're alive  
That's how life reminds us we're alive

Cause everybody's born with a big big dream  
That you make and you break til your heart stops beatin'  
That's how life reminds us we're alive
