

# Lost But Not Alone

Michael Franti & Spearhead

I am lost but not alone  
I am lost but not alone  
I am lost but not alone  
I am lost but not alone

Hey my friend if you need someone  
Who could talk with you all night long  
Come and talk with me, with me, with me, with me  
And hey my friend if you need someone  
Who could rock with you all night long  
Come and be with me, with me, with me, with me

I am lost but not alone  
I am lost but not alone  
I am lost but not alone  
I am lost but not alone

I've been wandering through these streets all day  
Wondering what would come my way  
When you said hey, said hey, said hey, said hey  
I've been dreaming I would find someone  
I could love all my live long days, my live long days, my days,  
my days, my days

I am lost but not alone  
I am lost but not alone  
I am lost but not alone  
I am lost but not alone

You take me higher (higher), higher (higher), higher (higher),  
higher (higher)  
Whoa whoa whoa whoa  
Whoa whoa whoa whoa

I am lost but not alone  
I am lost but not alone  
I am lost but not alone  
I am lost but not alone
