

# Meet Me When The Sun Goes Down

Michael Franti & Spearhead

Take all of your prayers and all of your cares  
Take all of your good times and ones you can't bare  
Take all of the hassle, all of the hustle  
And roll it all up like one piece of the puzzle  
Take all of your people and all of their dreams  
Take all your laughs and their tears in between  
Call to your maker up to the sky  
Throw it up high

And meet me when the sun goes down  
The sun goes down  
Change all your plans, grab all your friends  
Life is for living and meet me when the sun goes down  
The sun goes down  
I don't care how you get here  
Meet me when the sun goes down  
(1, 2, 3, hey)

Remember those parties on hot Friday nights  
The times we got high dancing in the moonlight  
When my heart was broken and I needed a friend  
You said I'll be there forever anytime you need a hand  
Take all of your people and all of their dreams  
Take all your laughs and your tears in between  
Call to your maker up to the sky  
Throw it up high

And meet me when the sun goes down  
The sun goes down  
Change all your plans, grab all your friends  
Life is for living and meet me when the sun goes down  
The sun goes down  
I don't care how you get here  
Meet me when the sun goes down  
(1, 2, 3, hey)

And meet me when the sun goes down  
The sun goes down  
I don't care how you get here  
Meet me when the sun goes down
