

Nobody Cries Alone

Michael Franti & Spearhead

Whenever you stumble
Whenever your problems overload
Whenever you worry
Know that your heart don't beat alone
And I will be waiting
With a hand to hold onto
'Cause in this home nobody cries alone

So when you're feeling all alone
I'll be shining on
Like a star light, waiting to guide you home
And like a candles light
I will hold you through the night
I'll remain 'cause nobody cries alone

Whenever you tremble
Whenever your voice can't find the words
Whatever your trouble
Know that your heart don't beat alone
And I will be waiting
From today to ninety-nine
Through the darkness 'cause nobody cries alone

So when you're feeling all alone
I'll be shining on
Like a star light, waiting to guide you home
And like a candles light
I will hold you through the night
I'll remain 'cause nobody cries alone

Nobody cries alone, nobody cries alone
I'll remain 'cause nobody cries alone
And every little thing is gonna be alright
Every little thing is gonna be alright
Every little thing is gonna be alright, I know
Every little thing is gonna be alright
Every little thing is gonna be alright
Every little thing is gonna be alright, I know

Whenever you stumble
Whenever your problems overload
Whenever you worry
Know that your heart don't beat alone
And I will be waiting
With a hand to hold onto
'Cause in this home nobody cries alone

Nobody cries alone, nobody cries alone
I'll remain 'cause nobody cries alone
Nobody cries alone, nobody cries alone
I'll remain 'cause nobody cries alone
I'll remain 'cause nobody cries alone
