

Nobody Like You

Michael Franti & Spearhead

All the freaky people make the world go 'round like
All the freaky people make the world go 'round
All the freaky people make the world go 'round like
Nobody got a smile like you like
Nobody got a style like you like
Nobody ride a bike like you like
Cruise by I got me caught up in the headlights

Nobody got dreams like you do
Nobody sends memes like you do
You move me like movies HULU
Didn't know I could be moved who knew
Party on the weekend
Good vibes on repeat and
Ain't nobody sleepin', everybody's dreamin'
Summers on the beach and
Sunset got me peakin'
Everyone's unique and

There's nobody like you, nobody like you
There's nobody like you, nobody like you

If you see inside you
What I see inside you
There's nobody like you
There's nobody like you

Uh yeah
Everybody want the same thing don't they
Everybody want the sun on a cold day
Everybody wanna chill on a Sunday
Mix a little bit of J with some Coldplay

Everybody want a taste of the good life
Find a seven layer dip and a bag of ice
With a margarita twist up a spliff like
Huh yes that's the good life

Party on the weekend
Good vibes on repeat and
Ain't nobody sleepin', everybody's dreamin'
Summers on the beach and
Sunset got me peakin'
Everyone's unique and

There's nobody like you, nobody like you
There's nobody like you, nobody like you

If you see inside you
What I see inside you
There's nobody like you
There's nobody like you

Uh yeah
All the freaky people make the beauty of the world
All the freaky people make the beauty of the world
All the freaky people make the beauty of the world

All the freaky people make the beauty of the world

There's nobody like you, nobody like you
There's nobody like you, nobody like you

If you see inside you
What I see inside you
There's nobody like you
There's nobody like you

There's nobody like you, nobody like you
There's nobody like you, nobody like you

If you see inside you
What I see inside you
There's nobody like you
There's nobody like you
