

Sex And Drugs And Rock & Roll

Michael Franti & Spearhead

I don't need no sex, no drugs, no rock & roll
To get me high or to move my soul
All I need is you alone
You're my sex and drugs and rock & roll
Whoa

Some people got all the luck
They can stay up all night, and get messed up
I tried that life years ago
But all it did was pull me low

Whoa, whoa
I met you
Whoa, whoa

And I don't need no sex, no drugs, no rock & roll
To get me high or to move my soul
All I need is you alone
To keep me buzzin' all night long

So rock with me, rock with me, rock with me, baby
Roll with me, roll with me, roll with me, honey
All I need is you alone
You're my sex and drugs and rock & roll
Whoa

Ladatata, whoa, ladatata

Let's pour some records in our cup
Dance all night I wanna drink you up
I wanna breathe your love into my lungs
And we will be forever young

Like whoa, whoa
I got you
Whoa, whoa

And I don't need no sex, no drugs, no rock & roll
To get me high or to move my soul
All I need is you alone
To keep me buzzin' all night long

So rock with me, rock with me, rock with me, baby
Roll with me, roll with me, roll with me, honey
All I need is you alone
You're my sex and drugs and rock & roll

You're like
Ladatata whoa, ladatata, whoa, ladatata, whoa
All I need is you alone

You're my sex and drugs and rock & roll
You're my sex and drugs and rock & roll
All I need is you alone
You're my sex and drugs and rock & roll

Ladatata whoa, ladatata, whoa, ladatata

You're my sex and drugs and rock & roll
