Sometimes

Michael Franti & Spearhead

And I say, Sometimes, I feel like I could do anything and
Sometimes I'm so alive, so alive
Sometimes, I feel like I could swim 'cross the sky yeah
Sometimes, I wanna cry.

Most people try to aim to please
But a lot of them are kind of week in the knees
Learnin' late about the birds and the bees
Fallin in love and want to be set free

Playing ball at the age of 13
Everybodys going up with the dream
I never know this what could happen to me
Time flies when you're walking the streets
One minute got you holding an ace
The next minute got you fall on your face
The mean city is a nasty place
Only a rat, can win a rat race

(8va) Peace to the people who be far and away (Peaceful)
To make your home today
Peace to the people who be trying to find
Some kind of life

Your love never stop now
My love will never stop now
Your love never stop now
Our love will always shine

Somebody, sound of mind
Sound of the rythmn, sound of the rhyme
Somebody marching all of the time
Biggest mistakes are the humanist kind
(8va) Judge not lest you be judged
The court room or the bitter club
Blood bubbling thinker than mud yo
The heart beat, rubba dub dub
Show loving, love who you know
Family wherever you grow
Tokyo to Acapulco
(8va down) Balisimo, Magnifico
(8va) Peace to the people who be losing their head
Peace to the people who be needing a bed
Love to the people who be feeling alone
Spreading love through a microphone
Hope to the people who be feeling down
Smiles to the people who be wearing a frown
Faith to the people who be seeking the truth yo
All of the time

Sometimes, let love never stop
Sometimes, my love will never stop now
Sometimes, let love never stop
Sometimes, my love will always shine

'cross the sky yeah, cross the sky yeah

(Sometimes) I'm going to be there for you
(Sometimes) not just some of the time, every single time
(Sometimes) every single way, I'm going to be there for you.
(Sometimes)

(Sometimes) I'm going to be there for you
(Sometimes) not just some of the time, every single time
(Sometimes) every single way, I'm going to be there for you.
