

Thinking About You

Michael Franti & Spearhead

I remember all the days I forgot last year
My heart's a little broken but my mind is clear
And all I wanna do is think about you

I remember all the times that we disappeared
Driving to the beach while you whisper in my ear
And all I wanna do is think about you

Oh whoa whoa whoa whoa

Thinking 'bout you every night and day
Thinking 'bout you since you come my way
And all I wanna do is think about you

Oh whoa whoa whoa whoa

I tried to fry you up some breakfast in bed so hot
I could never cook like mama but I gave it a shot
And you smile smile smile
And I'm thinking 'bout you

You opened up your soul to me and told me your plans
And said we don't need no filter this ain't Instagram
And I smile smile smile and I'm thinking 'bout you

Oh whoa whoa whoa whoa

Thinking 'bout you every night and day
Thinking 'bout you since you come my way
And all I wanna do is think about you

Oh whoa whoa whoa whoa

Thinking 'bout you makes my world go 'round
Thinking 'bout you as the sun goes down
And all I wanna do is think about you
Oh whoa whoa whoa whoa

My mind on a trip now
Yeah my love never let down
Whoa whoa whoa

My ring never set down
In my house not a guest no
You're the one that I picked out

With your love need no big house no
Told my mama and she wiggled out
It's a future we gon' figure out

Thinking 'bout you makes me feel OK
You keep it real with the real I stay
When I'm feeling sick or a bit irate

You're my medicine, ya the pill I take
And all I wanna do is think about you

Oh whoa whoa whoa whoa

Thinking 'bout you every night and day
Thinking 'bout you since you come my way
And all I wanna do is think about you

Oh whoa whoa whoa whoa

Thinking 'bout you makes my world go 'round
Thinking 'bout you when the sun goes down
And all I wanna do is think about you
Think about you
