

# Beulah Land

Michael Grimm

Yeah!

Ooh

Yeah

She lives her life in a small small town  
Beulah knows everyone around  
And she gets her way  
That's what all the boys would say  
Knowing there's more in this world  
For a bright eyed beauty all American girl  
She just won't leave  
Gotta be around her family

There's no way to fall  
She's living free  
Yeah, as happy as a honey bee

She's a pretty girl living on the back roads  
Where the suckles bloom and the sugar grows  
Beulah land  
Beulah land  
She's a pretty girl living in her own world  
Just one step from heavens door  
Beulah land  
Sweet Beulah land

Ooh

Yeah I met Beulah when I was 17  
The prettiest thing that I ever seen  
We talked all day  
Laughin' 'bout what all the boys would say  
The years rolled by now I'm a grown man  
I moved away from Beulah land  
But I can't erase  
The beautiful smile on Beulah's face

Time to go back home  
I've gotta find  
My baby just one more time

She's a pretty girl living on the back roads  
Where the suckles bloom and the sugar grows  
Beulah land  
Beulah land  
She's a pretty girl living in her own world  
Just one step from heaven's door  
Beulah land  
Sweet Beulah land

Ooh I've gotta see her  
Ooh I gotta let her know what's on my mind  
'Cause I got this feeling inside of me  
Singing she's the one I need  
I can't let go, oh no

Ooh I've got to see my baby one more time

I've gotta see her  
I've gotta see

Her beautiful face in the morning with the light on her hair  
And I'm so excited that I'm almost there because  
I've gotta see her  
I've gotta see  
Holding my hand and talking about the stars  
In the backseat of my daddy's car  
I've gotta see her  
I've gotta see my Beulah land

I've gotta see her  
My Beulah land  
I've gotta see her  
I've gotta see her  
I have got to see my baby one more time  
I've gotta see her  
Her face in the morning with the light on her hair  
Ooh I have got to see my baby one more time  
I've gotta see her  
I've gotta see her, my baby  
Going home, going home  
I've gotta see her
