

# Logtown

Michael Grimm

Daddy worked at the sawmill  
Just like his daddy did  
Pushing lumber all day long  
To feed his little kids  
Mama stayed on cleaning  
You could hear her all day long  
Her voice made everybody smile  
Mamma sure could sing a song

All the fireflies in the summertime  
Such a peaceful sound

Take me to Logtown  
Take me to Logtown  
I've been waiting for such a long time

Take me to Logtown  
Take me to small town  
The only place I can leave this world behind

When the days are long and hot  
We had a well to draw water from  
And mom would make us sweet tea as we'd bathe underneath the sun  
Some days after school  
Daddy sent us to the store  
And I'd walk down that old dirt road that led to our front door  
All the leaves on the cypress trees sticking straight above the ground

Take me to Logtown  
Take me to Logtown  
I've been waiting for such a long time

Take me to Logtown  
Take me to small town  
The only place I can leave this world behind

Can you feel it?  
Ooh I can feel just like I'm there  
Can you feel it?  
I can smell the suckles in the air  
When it's time for me to leave this life  
And lay my worries down

Take me to Logtown  
Take me to Logtown  
I've been waiting for such a long time

Take me to Logtown  
Take me to small town  
It's the only place I can ease my worried mind  
Yeah it's the only place I can ease my worried mind  
Ooh it's the only place I can leave this world behind
