Golf Course

Michael Hutchence

Long ago when I was not much younger than a day
Daddy used to take me there to watch him as he played

Golf course do you remember of course you do
Golf course when I was young I did not envy you

Now the days have turned to years and I'll become a man
I bought myself a set of clubs and I tried the best I can

Here comes the early morning light revealing you
Golf course without you there's not much a man can do

Ooh, ooh ooh, ooh ooh, ooh ooh
Ooh, ooh ooh, ooh ooh, ooh ooh
Ooh, ooh ooh, ooh ooh, ooh ooh
Ooh, ooh ooh, ooh ooh, ooh ooh

Golf course do you remember of course you do
Golf course when I was young I did not envy you

A world's a scene in my head willing me to play
I'm alive, so much alive, well, what more can I say?

Ask me what I get it done than where the future lies
I tap my clubs and smile and say I'll stay here 'til I die

Here comes the early morning light revealing you
Golf course without you there's not much a man can do
Golf course do you remember of course you do
Golf course when I was young I did not envy you
