

City Of The Angels

Michael Johnson

City of the angels, spread your wings for me
I've been other places looking for my dream
Eastern cities move too fast, southern ones too slow
I can't go back to my past and I need some place to grow

City of the angels, clear your cloudy skies for me
I heard you got some places that I ought to see
L.A., L.A., find a place for me
In your spacious wings, where I want to be

City of the angels, spread your wings for me
I heard you got some places, old man like should see
Heard about your Disneyland, not too far away
When it rains, I understand, the skies are clear all day

L.A., L.A., find a place for me
In your spacious wings is where I want to be
L.A. is where I want to be
