

Love Me Like The Last Time

Michael Johnson

Oh, my love, now that you're here by me
I can see it in your eyes that the feeling is growing
This old world is so full of uncertainties
And as hard as we both try, we don't know where it's going

So love me like the last time
We could ever be together
Let's make it like the last time
As if this world wouldn't be here tomorrow

There are times when we tell ourselves we're safe
And it's so easy to believe it will be never ending
But I know even though we feel this way
There can be no guarantee in a world that keeps changing

So love me like the last time
We could ever be together
Let's make it like the last time
As if this world wouldn't be here tomorrow
Forever and always

If tomorrow it falls, then tomorrow it falls
It won't matter at all, it won't matter at all

So love me like the last time
We could ever be together
Let's make it like the last time
Then make it last forever
