# Savin' It Up

**Michael Johnson**

There've been lots of other girls since I first met you
But they haven't meant a thing at all
'Cause I met you, girl
Well, that something deep inside of me that you can have so eas
ily
Is waiting for you, only for you

I've been savin' it up for a long time, baby
Building it up till it's higher than the sky
I've been savin' all my love for you
All my love for you

There've been lots of pretty words I should have told you
But I let you slip right through my hands
And if I told you, girl
Well, I'd have you standin' next to me but words don't come so
easily
So if you give me one more chance, I'll show you, only you

I've been savin' it up for a long time, baby
Building it up till it's higher than the sky
I've been savin' all my love for you
All my love for you

I've been savin' it up ever since I met you
Hoping that luck will somehow make you mine
I've been savin' all my love for you
All my love
