

# That's What Your Love Does To Me

Michael Johnson

I used to love free and easy  
Hitting the road any time I pleased  
You came and turned me around  
Now all I think about is settling down

That's what your love does to me, that's what your love does to  
me  
Made me wonder what I ever saw in being free  
I'm used to running but my heart says stay  
This time there ain't no running away  
That's what your love does to me, that's what your love does to  
me

Out every night when the sun goes down  
Neon lights and the jukebox sound  
I used to be first in line now  
It's the last thing on my mind

That's what your love does to me, that's what your love does to  
me  
Made me wonder what I ever saw in being free  
I'm used to running but my heart says stay  
This time there ain't no running away  
That's what your love does to me, that's what your love does to  
me

Every heart gets the chance to be untrue  
There'll come a time when mine will, too  
Well don't you worry when it comes my time  
My heart's gonna walk the line

That's what your love does to me, that's what your love does to  
me  
Made me wonder what I ever saw in being free  
I'm used to running but my heart says stay  
This time there ain't no running away  
That's what your love does to me, that's what your love does to  
me
