

## Who's That Look In Your Eye

Michael Johnson

You used to never could let go  
Now you hold me like someone you don't know  
I used to be your look of love  
Now you're staring blindly like there's someone behind me

Who's that look in your eye  
Who's the man on your mind  
Who's the reason why you don't love me anymore  
Who's that look in your eye  
It don't look like me  
'Cause I've never seen that look in your eye before

Is it anyone I know  
Is it a perfect stranger, baby I don't wanna know  
'Cause he don't look so good to me  
I just think I'll close my eyes 'cause I don't want to see

Who's that look in your eye  
Who's the man on your mind  
Who's the reason why you don't love me anymore  
Who's that look in your eye  
Well, it don't look like me  
And I've never seen that look in your eye before
