

Can't Tell

Michael Kiske

I made my commitment
Now that I'm doing time
And you enforce an addiction
You're sure on your mission

I plead defenseless
When I catch your smile
The tension's nameless
Let me breathe for a while

Yes I said I was true
With a conscience like you
Didn't plan what I do
It was over my head
I guess that's just what you get
All advice goes and then
To tell what I see in you

I resigned declarations
God I have changed my mind
And you leave no explanations
Create aggravations

I plead defenseless
When I catch your smile
The tension's nameless
Let me breathe for a while

Yes I said I was true
With a conscience like you
Didn't plan what I do
It was over my head
I guess that's just what you get
All advice goes and then
To tell what I see in you

Pride is broken, fate has spoken
Get my bag from the wagon

Yes I said I was true
With a conscience like you
Didn't plan what I do
It was over my head
I guess that's just what you get
All advice goes and then
To tell what I see in you
