## I'll Never Love

## **Michael Kiwanuka**

I'll never love somebody I'll never love somebody Leave me cold Trouble song in the moonlight Will be my bride

I'll never need somebody I'll never need somebody Leave me alone A worried mind in the violence Will be my guide

I'll never hold somebody
I'll never hold somebody
For very long
I make love but only for a night
And I'll be gone

I'll never love somebody I'll never love somebody Leave me cold The trouble song in the moonlight Will be my bride Will be my bride Will be my bride
