

# I Need You by My Side

Michael Kiwanuka

Far away, I've been so long away  
I get a little lost, hey, but I've found my way  
See I've been, wondering why, I keep losing, hey  
How I need you, yes I need you by my side  
Holding on, I'm barely holding on  
When I hear your voice, oh, I can keep on  
See I've been, healing this long, all on my own  
How I need you, yes I need you by my side  
Oh, no there's times that I'm not sure, but I need it  
Uh, you're forever on my mind, don't know  
Seen me on my own, seen me try  
Yes, need you by my side, all the time  
Heal the day, yes I can see the day  
Oh, see how you made me strong, now I sing my song  
See I've been, falling away, for a too long way  
How I need you, yes I need you by my side  
How I need you, yes I need you by my side
