

Worry Walks Beside Me

Michael Kiwanuka

Worry walks beside me every day
They say I should run but It's comin my way
I'll be doin fine if you just leave me behind

Coming all over and under my skin
Say if I follow I will die like a king
I'll be doin fine if you just leave me behind

What will it take to believe I can run?
What will it take? When will I be done?
I've been trying

I find him standing here all the time
I find him trying to steal all that's mine
I'll be doin fine if you just leave me behind

What will it take to believe I can run?
What will it take? When will I be done?
I've been trying

What will it take to be free again?
I wanna leave this behind
What will it take just to see again?
All this is making me blind

What will it take to believe I can run?
What will it take? When will I be done?
I've been trying

How does it feel to be flying away?
How does it feel to believe today?
I've been trying

Worry walks beside me everyday
