

Friends

Michael Malarkey

Trying real hard to keep my friends
But they always seem to have other plans
People to see, places to be
I bet they get together without me
I bet they get together without me

Maybe we're all just thinking the same
The years go by til we lose our names
But I got my worries and shit to do
So I guess that I'll be fine without you
I guess that I'll be fine without you

So I mumble some in my humdrum town
And a rumble comes like a thunder cloud
I keep on wondering if I'll move my mouth
But I crumble up and no sound comes out

I'm going out tonight
I might need some help from my friends
I'm going out tonight
I might need some help from my friends

I'm going out tonight
I might need some help from my friends
I'm going out tonight

Well, you know I'm stuck here in this sorry town
Move every year, still headed south
Missing the past, taking the blame
Hey how are you? Well hell, I can't complain

So I mumble some in my humdrum town
And a rumble comes like a thunder cloud
I keep on wondering if I'll move my mouth
But I crumble up and no sound comes out

Stumble some and I've lost the fun
And I fumble dumb stoned in the sun
All the bumble bees got me on the run
Cause the summers come and my heads gone numb

Mumble some in my humdrum town
And a rumble comes like a thunder cloud
I keep on wondering if I'll move my mouth
But I crumble up and no sound comes out

Stumble some and I've lost the fun
And I fumble dumb stoned in the sun
All the bumble bees got me on the run
Cause the summers come and my heads gone numb

I'm going out tonight
I might need some help from my friends
I'm going out tonight
I might need some help from my friends
