

# Savannah

Michael Marcagi

Savannah, all I've ever known  
And I'm asking, you to come back home

Cause you were running out the door in the pouring rain  
Cause the years of being sober must've drove you insane  
If the good days are over, I can still try for another one

And it's over over over cause of you  
And it's over over over I love you  
And I'll make the money if you give it time  
I'm still here if you ever change your mind

And you know, where it's gonna go  
You are wild, it's so far in your soul

Cause you were running out the door in the pouring rain  
Cause the years of being sober must've drove you insane  
If the good days are over, I can still try for another one

And it's over over over cause of you  
And it's over over over I love you  
And I'll make the money if you give it time  
I'm still here if you ever change your mind

And it's over over over cause of you  
And it's over over over I love you  
And I'll make the money if you give it time  
I'm still here  
And I can pretend that you never lied  
If you ever ever ever change your mind
