

The End of the Road

Michael Martin Murphey

[Verse 1]

When it's time for goodbyes
Or at least, so it seem
When the place you call home, cannot give you your dreams
When the past is the past and you can't take anymore
I'll let go off your hand as you walk out the door
And though my heart may break to see you go it alone
I pray you'll find strength to face the unknown

[Chorus]

And there' just one thing i want you to know
I hope you'll find love at the end of the road

[Verse 2]

At the end of the road if you find you've lost your way

May the new place you found be your old home someday
When you cross every sea conquer each mountain top
Then say all things must end
Then whenever you stop
If you come to the end, if you haven't got much
If you come round the bend and don't have true love's touch

[Chorus]

There's just one thing i want you to know
There' just one thing i want you to know
I hope you'll find love at the end of the road
I hope you'll find love at the end of the road
