

Where Would I Be Now

Michael McDonald

Something deep inside keeps me hanging on
Don't believe I've ever seen a night so long
Guess I was trying to fly way above the clouds
But I landed here in the morning rain
At your doctor

And I know I let you down again
But right now you know I need a friend
I don't know why I guess I just lose my way
And your eyes don't believe a word I say
Can't imagine without your love
Where would I be now?

Did you ever know I've always looked up to you
After all this time it remains true
There's no compromise no turning back for me
But through the veil of my pride
Sometimes it's hard to see

And I know that your love is all I need
When I fall don't stop believing in me
Cause your love is what's helping me survive
Your faith in me is what keeps my hope alive
Cause without your love
Where would I be now?

I will prove this love is worth fighting for
If it takes forever I will wait at your door

Cause your love is what's helping me survive
Your faith in me is what keeps my hope alive
Cause without your love
Where would I be now
