

Maybe Just Don't

Michael Nau

Maybe just don't
Say if it won't
Just let it hold you

And don't forget to forget
What to expect
Let it hold you

No future not past
It's not where it's at
Baby just don't be sad

A word from my head
Well it's as easy as that
And what it told you

Don't forget to forget
What to expect
And let it hold you

Who know's where it's at?
Or how it get's back?
Maybe just don't be sad, last

Who got your back?
I got your back
Baby just don't be sad
Just don't be sad, last
