

No Quit

Michael Nau

Every time you change my elevation
It just gets more plain to see
Through all of the craziness information
I need you so much more than you need me

But oh no I'm rising
As roses can be
Going over and over and over
To get closer to me

And very time you change the information
I just don't know where to start
Don't confuse imagination
With the wonder of a heart

Everything keeps
Coming apart
Going over and over and over
To get closer to the start
