

Poor Condition

Michael Nau

Poor condition
Strong connection
It's still moving through the wires
Just kept turning around the dials
And while the hiss is hissing
The fog is lifting

Poor condition
Strong connection
It's still passing through the tangles
Hard winding through the night
And while the buzz is buzzing
Something is buzzing right

Poor condition
Strong connection

Well the mess has been messing
All night

Poor condition
Strong connection
Poor poor poor condition
Strong strong strong connection
