Magic

Michael Nesmith

This night is magic
I can tell by the stars
This night is magic
With you in my arms
It would be tragic
If we ever part
Tonight is magic for love

You know I love you
Look in my eyes
You know I love you
It's paradise
For me to love you
And drift through the skies
The skies of magic and love

If you believe, it will always come true
That's the magic of love
I keep believing I'll always have you
That's the magic of trust

This love is magic
I feel it inside
This love is magic
There's nothing to hide
Our life is magic
We'll stay side by side
And feel the magic of love

This night is magic
I can tell by the stars
This night is magic
With you in my arms
It would be tragic
If we ever part
Tonight is magic for love

This night is magic
You know it's magic
Ooh, it's magic
